

SITE NUMBER: K69

NAME: Altries Wood Phase III

Assessment undertaken by: Sarah MacRitchie

Proposer: Churchill Homes

Nature of the proposal: Residential: 15 dwellings

Recommendation: Possible

Reasoned justification:¹ The site has a relevant constraint of ancient woodland designation over part of the site. The site scores -2 on the GAM. The site scores 0 in the SEA.

The proposal is adjacent to a group of 8 houses (with permission for a further 7 on the North side of the road) so constitutes about a 50% increase in size of the group. The group of houses is not recognised as a service centre. The primary school is about 3km away.

The site is possible if the boundary is altered to exclude ancient woodland.

Constraints mapping

	Criteria	Score	Justification
Capacity study site?			Which study:
Sustainable Economic Development	Accessibility of Existing centres of Employment	-1	
	Provision of Business Land	-1	
	Distance to Key Service Centres	-1	
	pedestrian/cycle links to key services, employment land and surrounding developments	-1	
Encourage and Support Regeneration	Brownfield Development	-1	
	Enhancement of Heritage	0	
	Supporting quality of Services including primary schools	0	
	Resolves Issues of Contamination on Site	0	
Maintain and Enhance the Quality of the Natural Heritage and Built Environment	Quality of Agricultural Land Lost	0	Majority of site classified 3.2
	Degree of loss of Biodiversity	0	Ancient Woodland would have to be excluded
	Setting of Historic Buildings Affected (SAM's)	0	
	Archaeology Affected	1	
Landscape	Shelter from cold winds	0	Woodland to West
	Potential for Passive Solar Gain	0	Flat
	Visual Considerations	-1	Currently small group of houses, fairly large expansion by 50%
	Designed Landscapes Affected	1	
Technical Issues	Availability of Water Supply	1	Glendye WTW capacity for 172 units
	Ease of Providing Drainage	0	No info
	Costs of Providing Access	0	
	Provision of New Community Services Required	1

SEA Objectives	Effect	Comments
SEA Topic: Air		
1 Protect and improve local air quality.	-	Possible increase in commuter traffic in Aberdeen which has poor air quality
SEA Topic: Water		
2 Sustain and enhance water quality to good ecological status.	0	
SEA Topic: Soil		
3 Improve and safeguard soil quality.	0	
4 Reduction in the amount of waste going to landfill	0	
<i>Summary of effect:</i>	0	
SEA Topic: Biodiversity		
5 Conserve, protect, maintain and enhance biodiversity (including ecosystems, habitats, species and genetic).	0	If ancient woodland avoided
SEA Topic: Climatic factors		
6 Reduce the causes of adverse climate change (e.g. reduction in CO ₂ levels and NE global footprint).	0	
7 Reduce vulnerability to the effects of climate change (e.g. flooding, public service provision, and habitats).	0	
<i>Summary of effect:</i>	0	
SEA Topic: Human health

SEA Objectives	Effect	Comments
13 Promote the creation of fixed, commercial and industrial assets.	0	
14 Regenerate derelict, vacant or contaminated land.	0	
15 Promote the use of sustainable materials and the adoption of Lifetime standards.	0	
<i>Summary of effect:</i>	0	
<i>Overall effect:</i>	0	<ul style="list-style-type: none"> The site has a neutral impact

¹ Reasoned Justification

Why should this site be considered or dismissed in the Local Development Plan? Please ensure you cover issues relating to the preferred settlement strategy as part of this justification, particularly where you are making a “Preferred” recommendation. Please also embed (copy and paste from GGP) any suggestion you might wish to make regarding allocating only part of the site, or on phasing.

Please see the spreadsheet “Target housing and employment allocations.xls” for guidance on the indicative scale of allocations to be sought in each area (Use the TRIM search facility to find this). For each of the 8 areas a report on settlement strategy options will have to be prepared that outlines the principles and options that have been considered. I believe that this is an iterative process which starts with the “targets” as modified first by availability of sites and our technical evaluation, and thereafter by the views of members as to what they wish to achieve. I have started that report.

Please maintain a record of your progress in “Spreadsheet to record progress on completing bid assessments Jan 2009.xls”.

Modification of the reasoned justification will be undertaken to reflect the desired settlement strategy following the Member seminars in March 2009 and for the final draft of the main issues report in May, when the sheets will form part of the evidence base for the main issues “proposals” maps (published separately as a technical appendix.
